

ABOUT THIS REPORT

We, DMCC, developed this report prioritising topics identified in collaboration with our stakeholders by understanding risks and opportunities, negative and positive, potential, and actual impacts related to environmental, social, and economic aspects relevant to our operational activities and how we manage them.

Our commitment to continuous sustainability and transparency aims to strengthen our influence and impact as a globally recognised hub for global commodities trade and the fastest growing and largest free economic zone in the United Arab Emirates.

OUR REPORTING STANDARDS

DMCC aligns with international sustainability standards to ensure best practices and reporting quality. This report follows the Global Reporting Initiative (GRI) Standards, covering stakeholder engagement, materiality, completeness, and accuracy. This report has been prepared in accordance with the 2021 GRI Standards and is available on the GRI online disclosure database and DMCC's website.

Since August 2017, we've been United Nations Global Compact (UNGC) signatories, and this report complies with UN Global Compact Advanced Level requirements, serving as our Communication on Progress (CoP). The report is also available on the UN Global Compact website. We are also a signatory of the UN Women Empowerment Principles (WEPs) and an active advocate of the United Nations Sustainable Development Goal (SDGs) 5 on gender quality. We are committed to progress on multiple SDGs and have developed a strategic framework which can be viewed in the SDG index (insert page #). The GRI content index can be found at www.dmcc.ae/sustainability.

RESTATEMENT OF INFORMATION

We have done a thorough analysis of our Uptown energy consumption data and identified inconsistencies in 2019 and 2020 data reported in the previous sustainability reports, which we have rectified in this report.

STRUCTURE AND MATERIALITY

The layout of the report mirrors our sustainability strategy and illustrates how we act, measure, and manage it within our co-dependent business activities daily.

Each section of the report covers material topics under the umbrella of our three sustainability pillars:

- Sustainable City
- Operational Excellence
- Responsible Ecosystem

We've linked each material topic to the three pillars on the page (insert page #). The 12 topics were identified and depicted following materiality principles. The material topics are further defined within the report and supported with relevant disclosures. Due to the GRI update in the reporting standard, material topics disclosure consistency was slightly impacted. All material topics are supported with comprehensive data and the continuity of data over the last two-three years variables based on new disclosures added.

SCOPE OF ENGAGEMENT

This annual sustainability report covers our environmental, social, and economic performance in the last financial year, ranging from 1 January 2021 to 31 December 2021. The reporting period and the scope of this report is aligned with the DMCC's annual financial report. It includes entities and stakeholders which DMCC has administrative authority over, such as its permanent employees, owned and leased property, its assets and infrastructure, free zone regulatory oversight, and the Master Community, which includes all of Jumeirah Lakes Towers District, Uptown Dubai District, the Jewellery and Gemplex District, One JLT, and other areas in line with DMCC Master

Community Declaration and Master Plan. In addition, we reference activities and services offered to member companies, retailers, developers and residents of the Master Community.

In compliance with GRI Universal Standards, our scope of engagement expanded to all business activities we impact regardless of direct or indirect control. We categorised our business relationships across our value chain and classified them based on proximity and influence of impact for organisational purposes. All levels of business relationships, despite their degree of proximity and influence, were engaged in the process of collecting feedback and data.

ASSURANCE

Deloitte & Touche Middle East (DTME) provided a limited independent assurance under ISAE 3000 (Revised) on preparing this report in accordance with the GRI Standards. DTME is independent of DMCC at the point that the report is issued. The outcomes of the assurance and relevant recommendations are presented in the management report that is reviewed at the senior level and circulated to data owners. As a Dubai government entity, we are not required to conduct assurance of this Report. However, we believe transparency is critical, and Deloitte's recommendations help us improve. For the scope of work and observations, please refer to the independent limited Assurance report shown on page 6 of this Report.

FEEDBACK AND SUGGESTIONS

We welcome your feedback and suggestions on our sustainability performance, commitments, and progress. Please direct your comments to sustainability@dmcc.ae.
